THIRD INFORMATION DISCLOSURE STATEMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Applicant hereby voluntarily discloses the items listed on the attached Form PTO-1449 to the Commissioner for Patents.

- Copies of items **C-H** are enclosed herewith.
- Pursuant to 37 CFR 1.98(a)(2)(i), copies of **A-B** (U.S. Patent Documents) are not enclosed.

Copies of the references listed on the attached Form PTO-1449 are being submitted at this seemingly late date because they only recently became known to an individual associated with the filing or prosecution of the above-identified application; and a certification, as specified in paragraph (e) of 37 CFR 1.97, is enclosed herewith.

Applicants also request that the Examiner review the below-listed patent applications. The serial numbers of the below-listed U.S. patent applications are listed on this form as provided in M.P.E.P. §609(D), rather than a PTO/SB/08A form.

Applicants do not waive the confidential nature of the below-listed patent applications.

- U.S. Patent Application No. 10/679,914, filed October 6, 2003;
- U.S. Patent Application No. 10/385,588, filed July March 11, 2003;
- U.S. Patent Application No. 10/385,976, filed July March 11, 2003;

The citation of this information does not constitute an admission that any of the materials are available as a reference or of priority, or a waiver of any right applicant may have under applicable statutes, Rules of Practice in patent cases, or otherwise. Without limiting the foregoing, Applicant specifically reserves the right to establish the patentability of the claimed invention over any of the listed information should they be applied as references, and/or to prove that some of the cited information may not be prior art, and/or to prove that some of the cited information may not be enabling for the teachings they purport to offer. This statement further should not be construed as a representation that an exhaustive search has been made, or that the information cited herewith is material, or that there does not exist information more material to the examination of the present Application. The Examiner is specifically requested not to rely solely on the information submitted herein. On the contrary, the Examiner is requested to conduct an independent and thorough review of the information, and to form independent opinions as to their significance.

It is respectfully requested that the Examiner initial and return copies of the enclosed PTO-1449 and to indicate in the official file wrapper of the above-identified patent application that each item of the cited information has been considered.

Respectfully submitted,
